

**International  
Women's  
Day**

**THE  
GLOBAL  
SURGERY  
FOUNDATION**

# **Breast cancer is the leading cause of non- communicable deaths in women**

**Here's how value-based  
approaches can bring  
inclusive care to women**

**3.8M**

Surgical intervention is required in nearly all breast cancer cases.

An estimated **3.8 million surgical operations** are needed to treat breast cancer globally by 2030.

International Women's Day

**The value-based healthcare (VBHC)** approach centres on women and their experiences in the care continuum. Resulting in valuable and inclusive care.

**It's time to bring the promises of VBHC to women, through women.**

Together with our partners, we have recently reached **830 women** in Türkiye.

Thus deepening our understanding of delays in diagnosis and surgical treatment of breast cancer.

International Women's Day

**valuebased  
healthcare-un.org**

Let's work together to bring  
value-based healthcare  
to women.
