

International
Women's
Day

THE
GLOBAL
SURGERY
FOUNDATION

**Surgical care provides
a critical missing
piece for women's
health equity**

Here's how

Swipe to start >>>

www.globalsurgeryfoundation.org

Surgical care is essential in
maternal health

Safe, timely, appropriate
caesarean sections can prevent
100,000 maternal deaths.

Every year.

Surgical care is essential in
breast cancer care

Surgical care for breast cancer addresses a gap in care for the **world's most common cancer.**

It offers the best chance for cure.

Surgical care is essential in
cervical cancer care

Cervical cancer kills one woman
every two minutes.

Early-stage surgical care
addresses the treatment gap in
cervical cancer.

International Women's Day

**Every woman deserves
access to quality
surgical care.**
